

Imadh Khan graduated summa cum laude from the University of Illinois at Urbana-Champaign where he earned his Bachelor of Science in Molecular and Cellular Biology (MCB). He completed his undergraduate career as a James Scholar and a member of the Dean's List. He is currently an MCAT tutor for Blueprint as he awaits the start of medical school in the fall of 2022.

Throughout his academic career, Imadh has strived to deepen his understanding of medicine through research and was recently published as the first author of "Utility of Cyst Fluid Carcinoembryonic Antigen in Differentiating Mucinous and Non-mucinous Pancreatic Cysts: An Updated Meta-Analysis". He has also published two other papers titled "Yoga Effects on Brain Health: A Systematic Review of the Current Literature" and "Capturing the patient's voice: Kano Analysis of the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey".

He has explored his medical inclination as a Medical Assistant at Illinois Cancer Care and has held various research positions at OSF St. Francis.

His time as a project intern with the Champaign County Medical Society taught him the importance of preventative medicine which he hopes to incorporate in his future career as a physician.

Imadh has furthered his knowledge of his community as the President of Illini Thaakat Foundation, a non-profit organization dedicated to providing education and healthcare to forgotten communities. He has also served as the Knowledge Chair of the Muslim Students' Association and the Secretary of MCB Leaders.

In his free time, Imadh plays tennis and was an active member of Club Tennis at UIUC.
